Jointly Provided by the

ACCREDITATION AND DESIGNATION STATEMENTS

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Mississippi State Medical Association (MSMA) and the Academy of Anesthesiology.

The Mississippi State Medical Association (MSMA) is accredited by the ACCME to provide continuing medical education for physicians.

The Mississippi State Medical Association (MSMA) designates this live activity for a maximum of 10.00 AMA PRA Category 1 Credits™ and 5.75 MOCA credits. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MOCA

This activity contributes to the CME component of the American Board of Anesthesiology's redesigned Maintenance of Certification in Anesthesiology™ (MOCA®) program, known as MOCA 2.0®. Please consult the ABA website, www.theABA.org, for a list of all MOCA 2.0 requirements.

They have updated the statement and the one for lifelong learning does not include the total number of hours they will claim. You may also want to include a statement indicating that MSMA will report ABA MOCA 2.0 credit directly to the ABA on behalf of participants.

TARGET AUDIENCE

The educational program will provide pertinent information to anesthesiologists that practice in Ohio. This would include anesthesiologists practicing in tertiary care non-university hospitals, urban, suburban and rural community hospitals, outpatient surgical centers, office-based practices and university teaching hospitals. The content of this program is also applicable to residents and fellows in anesthesiology as well as anesthesiologists assistants.

SUMMARY STATEMENT

OSA's 87th Annual Meeting is a celebration of excellence in patient care, education and advocacy. Experts will present and discuss a variety of topics from managing clinical challenges and controversies to discussing topics relevant to practice management. These topics will emphasize practical approaches that are appropriate for an anesthesiologist in both private practice as well as academic practice.

STATEMENT OF NEED

Through presentations and interactive learning sessions with the nation's foremost leaders in value-based care, participants will develop the tools necessary to return to their home medical centers, anesthesia practices and educational institutions to enact immediate change. Presentations from the Ohio Society of Anesthesiologists (OSA), will serve as the foundation for this ground-breaking educational experience.

DISCLOSURE POLICY

The Mississippi State Medical Association (MSMA) remains strongly committed to providing the best available evidence-based clinical information to participants of this educational activity and requires an open disclosure of any potential conflict of interest identified by our faculty members. It is not the intent of the Mississippi State Medical Association (MSMA) to eliminate all situations of potential conflict of interest, but rather to enable those who are working with the Mississippi State Medical Association (MSMA) to recognize situations that may be subject to question by others. All disclosed conflicts of interest are reviewed by the educational activity course director/chair to ensure that such situations are properly evaluated and, if necessary, resolved. Mississippi State Medical Association (MSMA) educational standards pertaining to conflict of interest are intended to maintain the professional autonomy of the clinical experts inherent in promoting a balanced presentation of science. Through our review process, all Mississippi State Medical Association (MSMA) CME activities are ensured of independent, objective, scientifically balanced presentations of information. Disclosure of any or no relationships will be made available for all educational activities.

COMMERCIAL SUPPORT ACKNOWLEDGEMENT

The CME activity is not supported by any educational grants from ineligible companies.

Noon-12:15PM Meeting Conclusion

EDUCATIONAL OBJECTIVES

- Outline key opportunities, limitations, and risks of artificial intelligence adoption in anesthesia and perioperative workflows
- Understand key aspects of patient selection and preoperative evaluation for pediatric ambulatory cases
- Integrate multidisciplinary planning and referral pathways into the care of complex cardiac obstetric patients
- Identify common neurosurgical anesthesia myths and apply contemporary evidence-based management strategies
- Identify early physiologic and hemodynamic signatures of perioperative sepsis and apply goal-directed resuscitation in the operating room
